

Uchechukwu Uboh

I leverage software technology and led teams to create intelligent customer-centric solutions that prioritize security, efficiency and effectiveness. With extensive experience in cloud computing, software development, and full-stack application design, I thrive in dynamic environments that require innovative solutions and leadership.

EXPERIENCE

Senior Software Engineer — Hashicorp

Apr 2025 - Present

- Lead the design and implementation of product usage metrics **ETL** pipeline to facilitate accurate customer monitoring and billing.
